

## **CVCE Open Positions**

The Centre Virtuel de la Connaissance sur l'Europe (CVCE) is a Luxembourg-based public institution that develops and maintains ENA (European NAvigator: [www.ena.lu](http://www.ena.lu)), the first digital library on the history of the European integration process.

The CVCE has immediate openings for the following positions:

1. **Specialist in Digital Library Concepts and User Experience** to support the design of high quality user oriented services and functionalities for the ENA DL with a particular focus on the analysis and follow-up of specific user communities as well as quality and trust issues within digital libraries. Will include following tasks
  - a. Development and follow-up of the necessary framework to capture the needs of the different ENA user communities and to translate them into service and functionality concepts
  - b. Development and follow-up of ENA service and functionality concepts on the basis of the user studies and in close cooperation with the content creators and the information architecture developers
  - c. Development and follow-up of the ENA “quality and trust” framework
2. **Digital Library Architecture Specialist** (fixed-term position) to support the reconceptualisation and the development of the current information architecture of the ENA DL. Demonstrate thorough knowledge of DL standards, technologies and approaches. A particular focus is put onto user-oriented web services as well as interoperability issues. The main task will be geared towards the Project management and documentation of the ENA architecture conceptualisation and development in close cooperation with the head of the department
3. **Service Oriented Architecture (SOA) Developer** (fixed-term position) to be involved in the development of the set of web services that will implement the core processes of the new digital library system. A first experience in the creation of web

services architectures, a good ability in proposing technical solutions, and a natural team spirit are required.

4. **Web 2.0 / Rich Desktop Application (RDA) Developer** (fixed-term position) to design and develop a new multimedia front office for the ENA DL. Using the very last internet technologies, the challenge consists in offering a better general experience to the final users in connexion with their actual needs and expectations. Mastering Flash and actionscript technologies as well as a good understanding of Web2.0 habits are a must.
5. **Economist** (fixed-term position) with a strong experience in the development of sustainable business models for digital heritage institutions to support the development of a framework for a sustainable economic model for the CVCE with a particular focus on the ENA DL.
6. **Specialist in European Studies** with a strong interest in knowledge society technologies and developments to support the development of high quality and scientifically validated content for the ENA DL. A PhD in European Studies (or related studies) is required. The tasks will include the scientific follow-up of the ENA content in close cooperation with the head of the department as well as an active participation in the organization of the content development.
